

FINMissionsTM

FIN Missions Provides Business/Vision Planning Sessions for Student-Based Organizations

We help students to turn mission/vision statements from concepts to practical steps for life after graduation.

During the planning workshops, students document their personal goals into a one or two sentences.

And then, students receive a blueprint to structure their statements into Educational, Career, Business, or Mission-based pursuits

Who We Serve:

Youth and Student-based
Organizations

Schools | After School Programs
